

TARRACO

I AM PURE SPEED AND PRODUCTION CHAMPION

PLANT

High vigor plant with large leaves, offering good foliar cover. Short to medium internodes. Good setting capacity and development of the clusters, always regular, with fleshy shafts and sepals. Very early ripening. It has the capacity to complete a long cycle and maintain high production throughout the entire cycle. Very good resistance to ToBRFV.

FRUIT

Large-sized fruits, with an bright red color and shine. Size and shape remain consistent throughout the entire growing cycle. Medium texture. Good flavor, with a balanced ratio of sugar and acidity. Medium-high degrees Brix, always above the tests. Medium-low cracking percentage. Good post-harvest resistance capacity.

RESISTANCES

HR: ToMV

IR: TYLCV / ToBRFV

improving food is in our genes
